Eight Digit HS Codes in Manifest

All Shipping Lines, Agents and Port Users

In line with our commitment to continuously enhance our processes and improve efficiency to our valued customers, and align with the Dubai Customs regulations, we have modified the Manifest system to accept eight-digit HS codes used globally.

Therefore, we kindly request you to submit eight-digit valid HS codes in Manifest files. This will help us gain data accuracy and identify cargo types including perishable goods well in advance to speed up the process of container clearance at the terminals.

The new change will be effective from the 1st of April, 2020.

We thank you for your continued support and cooperation.
