CONFIRM DETAILS

CargoWaves is an AI-powered inland transportation platform designed to optimise port-to-warehouse container movements. In a first-of-its-kind powerful convergence, thousands of cargo owners and hauliers are connected with the port operator through a single platform to digitalise and streamline the processes of booking trucks, scheduling terminal slots, and coordinating with truck drivers.

Integrated with Dubai Trade, CargoWaves connects fleet owners with millions of container movements in and out of Jebel Ali Port - the ninth busiest container port globally. With an AI-engine at its core, delivers smart suggestions for routes, terminal slots, load matching, milestone-based tracking, and more.

Stay informed. Stay connected.
