Dear Valued Customer,

Dubai Customs will implement the following changes on 31st May in the Customs Declaration System of Mirsal-2 to facilitate the members of the International Humanitarian City (IHC) to capture their pre- defined product Keys in their Customs Declaration for inward and outward movements of goods.

Capture additional attributes in Declaration for International Humanitarian City (IHC) Members

If a Customs Declaration is submitted by a non-IHC Member where an Importer or an Exporter is an IHC Member, then the Declarant must provide the required information of applicable IHC products in their Customs Declaration. The list of IHC Product keys can be selected from the list of values provided in the Declaration attributes.
